THE SNOW MELTING. UNLESS THE THAW IS GRADUAL THERE WILL BE A FRESHET.

Thick-Two White Men Nearly Frezen to Death.

Yesterday was the warmest day Richmonders have enjoyed for nearly a month, and all traces of the tenacious cold wave disappeared before the mild rays of the sun, which shone merrily down on the dirty snow and mad. The thermometer registered 48 degrees at 3 in the afternoon.

As far as the weather was concerned, the day was beautiful, but, regarding it from a pedestrian's standpoint, it was hideous. Walking was indescribably miserable, and the melling snow caused water to drip incessantly from the housetops. Slush predominated almost everywhere, and its absence was invariably marked by the presence of mud. On Main street the one dition of things was particularly bad. Walkways were covered with a black, sinny mud, which bespattered shoes and clothing and made the public feel that soap and water were absolutely essential to the welfare of mankind.

The QUESTION OF COSIS.

This section gives the tax-payer who has tendered coupons cut from bonds funded and against whom a judgment has been entered the privilege of discharging the tax in said coupons, but he must pay the costs in money. The disproportion between the tax and the cost in most cases arises from the fact that where the Common wealth has attempted to execute the original judgment she has been met by a second tender, and the law officers have instituted another process. In some instituted another process, in some of costs and three judgments against a tax-payer, but all of them consequent upon their own act. If the law officers choose to compromise that is their matter, but under the act the Olocit committee has agreed to pay these costs in money.

of Increasing Her Army of Occupation-The Situation Grave. (By Angle-American cable to the Dispatch.)

LONDON, January 21.-The Egyptian situation is assuming a gravity which for the time being overwhelms in the public mind all other issues, including even Irish home rule. Lord Rosebery has received telegraphic advice from Lord Cromer to the effect that the Khedive had intimated his intention to refer to the Turkish Sultan and the treaty powers the action of England in causing the dismissal of the Fakhri Cabinet. Other advices from Cairo state that the natives are in a more excited condition inan at any time since the outbreak under the leadership of Arabi Pasha. PRALONGED CABINET COUNCIL.

Mr. Gladstons caused a Calenct council to be called to day to consider the Egyptian criss. The Marquis of Ripon, Secretary for the Colonies, left a bed of sickness to be present at the Cabinet meeting. The council sat for two hours. A stream of telegrams continued to paur into the Foreign Office from Caira. These were immediately transmitted to the Cabinet. When the council adoutned it was to reassemble at 4 o'clock P. M. The prelonged session is understood to be due to a difference of opinion as to the necessity of reinforcing the British army of occupation in Egypt, both with a view to protecting British interests at Cairo and to protecting the fronter against the Dervishes, who have recently become very menacing. cently become very menacing.
